Nigeria Unified Keyboard

by David Rowbory, December 2016

a	+	;	=	ə		**shape**
	+	;	=	a̠		**shape**
a	+	`	=	à		**tone**
	+	`	=	á		**tone**
n	+	;	=	ŋ		**shape**
b	+	;	=	ɓ		**shape**
a	+	~	=	ã		**nasal**

Type a normal letter than press the ; (semicolon) key to change its shape. Keep pressing this key to try different shapes related to the original letter.

After typing a letter that can have a tone accent mark, press the `~ key (normally to the left of the number 1 key) to try different tone marks.

After typing a vowel, hold down the ⇧ **shift** key then press the `~ key to add or remove the nasal mark.
